

NAME – ARPAN MONDAL

DESIGNATION – SENIOR ANALYST

TOPIC – CRITICAL THINKING

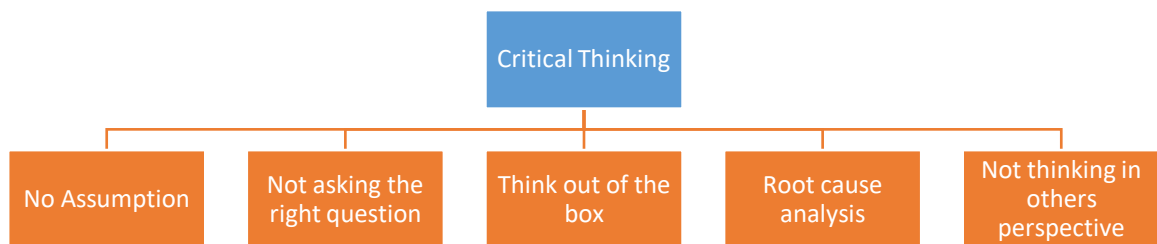

TEACHER IN CHARGE – SHRUTI RAVINDRAN

DATE – 13.09.19

WHAT IS CRITICAL THINKING?

Critical thinking is the analysis of facts to form a judgment.

CRITERIA OF CRITICAL THINKING?

LOTS

Lots is Lower Order Thinking Skill. Lower-order thinking skills are reflected by the lower three levels in Bloom's Taxonomy: Remembering, Understanding, and Applying.

HOTS

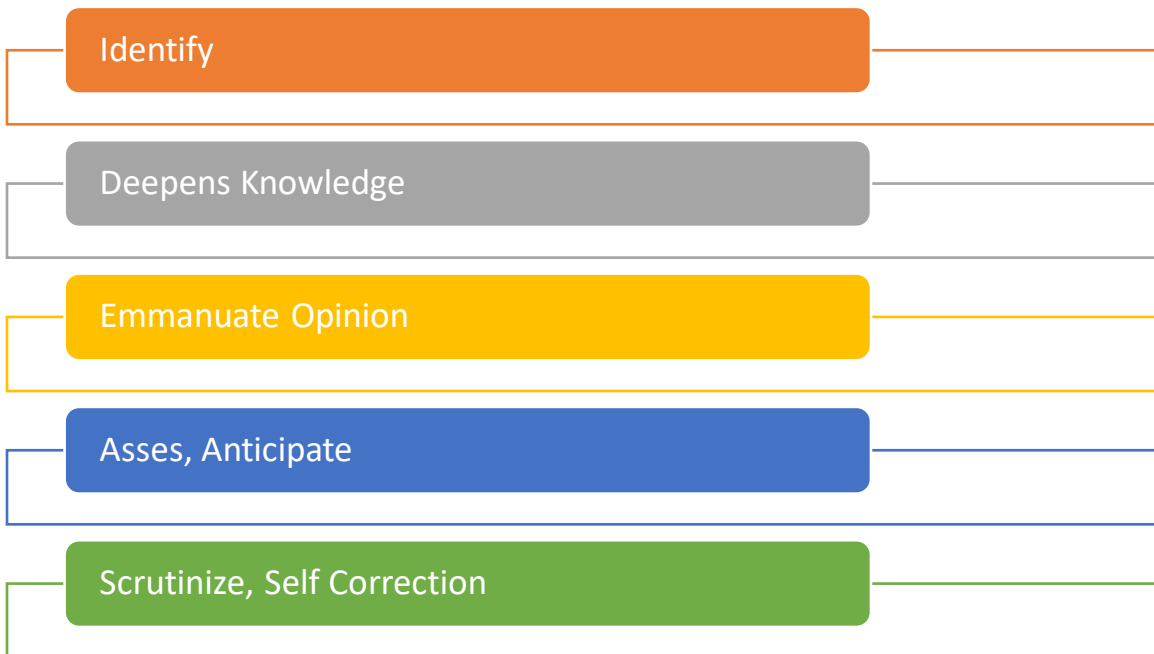

Hots is Higher Order Thinking Skill. Higher-order thinking skills are reflected by the top three levels in Bloom's Taxonomy: Analyzing, Evaluating, and Creating.

CRITICAL THINKING VS ANALYTICAL THINKING

Critical thinking has to do with evaluating information that is fed to you, and determining how to interpret it, what to believe and whether something appears to be right or wrong

Analytical thinking describes a thinking style that enables a person to break down complex information or a series of comprehensive data.

HOW TO THINK CRITICALLY?

With these IDEAS is formed.
